IN OPERATION

WELCOME MESSAGE

The FBE420 displays a welcome message, visible by the patron, when entering the bus, provides information concerning fare or any other relevant data. The different operation can be selected by four switches located near the patron display

PAYMENTS WITH BILL OR COINS

Once a bank bill or coins is inserted, the FBE420 verifies its validity and checks if it belongs to the list of authorized bills or coins:
- Banknotes: $1, $5, $10, $20
- Coins: 1c, 5c, 10c, 25c, $1

Any bill or coins not belonging to the list of authorized bills or coins is given back to the patron. Another banknote can be inserted as soon as the refused bill is removed by the patron.

PAYMENTS WITH CARDS

Once the credit card is read by the swipe reader, the FBE420 verifies its validity and processes payments

TICKETS DELIVERING

When the payment is accepted, the FBE420 delivers a magnetic transportation ticket.

CARD RELOADING

When the payment is accepted and the transportation card is presented, the FBE420 reads the data stored on this one and performs the reloading operations.

TICKETS VALIDATION

When entering the bus, the patron must validate its transportation ticket:

- By inserting the magnetic tickets into the FBE420 front slot
- By presenting the contactless card on the FBE420 top target.

OPERATION RESULT

A display, a green and red indicator are located on the top of the housing to indicate whether the operation is correct or not.

This information is associated with a specification sound.
